

Define your problem statement

Among all of the challenges faced by the EV industry, the most prominently reported problems are low mileage of the vehicles, higher costs, lack of service centers, unawareness about maintenance and servicing, unclear policies, supply chain problems, and insufficient charging stations.

Brainstorm

Ideas that come to mind that address the problem statement

Capacity and bootspace availability in EV

Listing different brands and Charging Speed and models available in world market

Location of details of Speed and Speed and Speed and Range
